BY THE SENATE, NOVEMBER 25, 1789.

WE have differted to the resolution enabling the governor and council to examine and settle the account of Francis Deakins. An act was passed at the last session of assembly, which, among other provisions, appears to have referred the necessary expences attending the survey to the committee of claims; and we retain the opinion, that accounts of such importance ought to be submitted to the consideration of that tribunal. We therefore take the liberty to propose, that the memorial of Mr. Deakins, the accounts, vouchers and other documents, of his services, be referred to that committee, and to suggest the propriety of a distinct report upon this subject. Whilst we have this business in contemplation, we also propose, that all considerable claims which may be submitted to the examination of that committee, should be separately reported on to the house, at an early period of the session, in order that, in cases which so materially affect the interests of (our fellow-citizens, the requisite attention may be given to each particular claim by both branches of the legislature, which is too frequently omitted when included in the journal of accounts; for it cannot have escaped your observation, that the period of the fession, to which the close of the journal is unavoidably postponed, the multiplicity of accounts comprehended therein, and the impatience of the members to return to their respective families, too often prevent that serious consideration which each particular entry may eventually require.

By order, H. RIDGELY, clk.
